- Factory aligned and pre-pinned hardware.
- Durable, attractive ABS facings in a choice of colors.
- Meets U.S.D.A. guidelines.
- Safety cushion nosing.

Semi-Flexible Design Resists Impact Traffic Abuse in Retail, Commercial and Industrial Applications.

The most versatile traffic door on the market today, the Poly-Kor™ has been proven in a variety of applications. With its attractive appearance and many decor options, the Poly-Kor™ is well suited for most commercial applications. Fully insulated and gasketed, it is an excellent door for temperature control in restaurants, supermarkets, and food processing facilities. All materials meet U.S.D.A. guidelines, making the Poly-Kor™ a good choice for meat packing plants as well. Durability features built into the Poly-Kor™ door allow it to resist impact abuse by carts, pallets, hand trucks and light forklift traffic.

Engineered to be Durable, Shock Absorbing and Maintenance-Free.

The Poly-Kor's™ patented rubber "honey-comb" framework and flexible urethane foam insulation allow it to absorb impacts from commercial and light industrial traffic. The V-cam hinge is constructed of corrosion-resistant high-strength meehanite and uses a sealed roller bearing that requires no lubrication.

Attractive appearance for retail designs and rugged construction for industry.

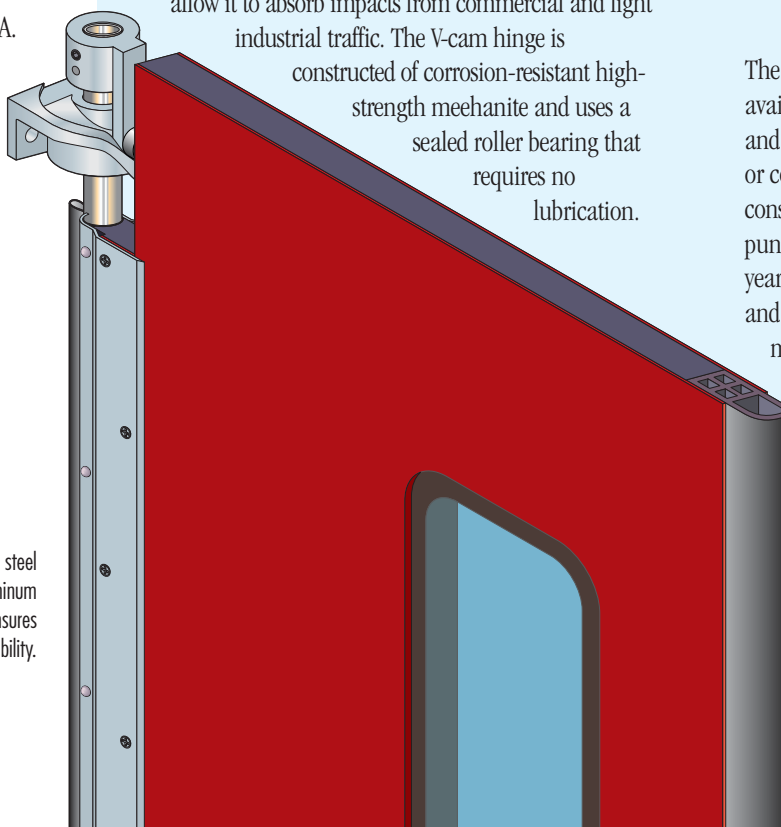

Poly-Kor™ with flexible transom.

The rugged ABS facing is available in a variety of colors and won't chip, dent, peel, pit or corrode. This proven construction withstands punishing abuse and provides years of dependable operation and attractive appearance with minimal maintenance.

Custom Made For Every Application.

Poly-Kor™ doors are custom-made to suit your application to within 1/8" of opening size up to 8' wide and 10' high. Transoms or dutch doors are suggested for opening higher than ten feet. Many impact protection options are available to provide years of smooth operation and trouble-free service.

Full height steel shaft and aluminum mount ensures optimum durability.

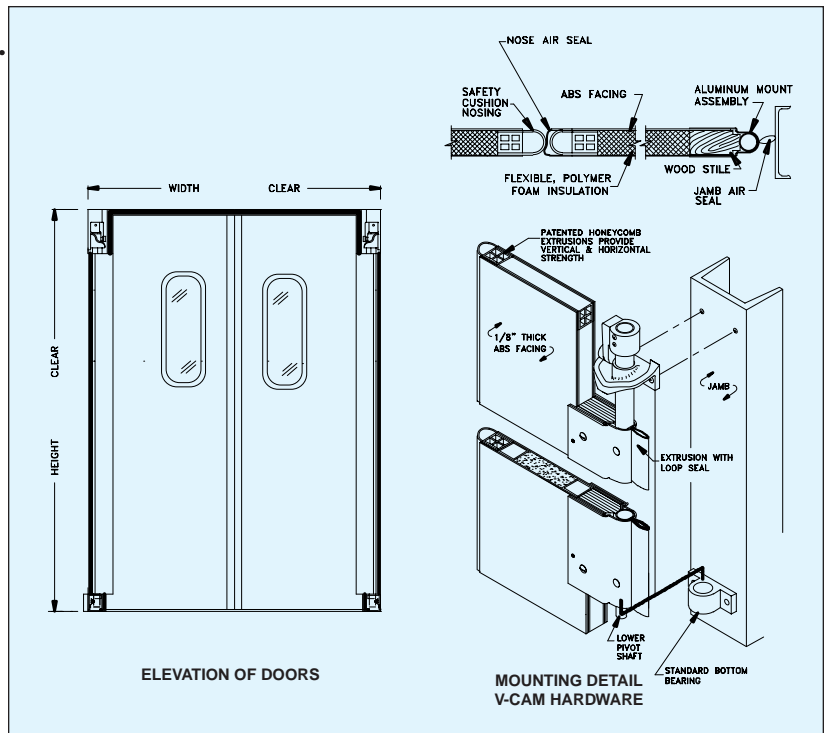

RUBBAIR DOOR poly-kor™

Other Options:

- Molded spring bumpers from 12" to 48" tall.
- Impact panels of ABS, vinyl or stainless steel.
- 8-3/4" jamb guard or combination bottom bearing and jamb guard.
- Cam hardware with extended swing.
- Multiple window sizes and configurations.
- Mounting strip for narrow jambs.
- Self-supporting steel frames.
- Weld plates.

The Poly-Kor™ Door has options for nearly every application.

Easy to Install. Easy to Use. Easy to Maintain.

Easy Installation

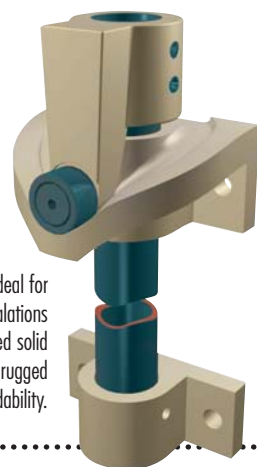

A mounting template is provided with the instructions to simplify installation. Once the hinges are fastened in place, the Poly-Kor™ door will be operational in minutes. The cam follower is factory aligned and pre-pinned to the steel shaft for a fast, trouble-free installation. To fine-tune the installation to out-of-square doorways, centering adjustments are provided.

V-Cam Hinges for All Applications

Poly-Kor™ provides a choice of hinges featuring the V-cam hinge design - the toughest hardware on the market. 3/4" rise V-cam gravity hinges are standard. For air pressure applications, the 1-1/2" rise cam and the Deep seat cam are available. Choose one of our extended swing hinges for tight turning traffic flow.

Low Maintenance

Occasional light-weight oiling of the shaft is all that is needed for smooth, quiet, trouble-free performance.

The V-cam is ideal for heavy-duty installations with its unmatched solid construction and rugged dependability.

3-part CSI specifications are available on disk.
